Community commemorates opening of park

BY DAVID PAN

REPORTER@YOURBEACON.NET

Three Kamiak High School graduates – Anna Bui, Jordan Ebner, and Jake Long – certainly were on the minds of community members who gathered Saturday, June 26, for the formal dedication of the Byers Family Park.

The tragic deaths of Bui, Ebner and Long, who were killed by a former classmate during a mass shooting in 2016, eventually provided a vision for the Byers Family Park at 604 Fourth St..

Mayor Jennifer Gregerson noted the Byers family donated the land to the City about 10 years ago, but the property sat untouched for a long time, as officials waited to create a vision for the site.

Bui, Ebner, and Long provided it.

Paul Kramer, whose son Will also was shot, but survived, said his heart still aches when he thinks about the incident.

Yet Kramer was glad to join the community at Saturday's event.

"I'm happy to be here today with you all to have a part in dedicating this park – this place for peace, for hope and reflection," he said. "This is a sign of a healthy, resilient community when we can acknowledge the pain and sadness of what has happened ... We reaffirm our values of peace and hope by creating this space for those purposes."

One of the benches in the park says "In Loving Memory of Anna Bui, Jordan Ebner, Jake Long and others whose lives ended too soon."

Another recently installed bench is painted with handprints created by Kamiak students, who gathered together to put on a rally in the aftermath of the shooting.

Beacon photo by David Pan

Paul Kramer speaks during the dedication of the Byers Family Park, also known as the Peace Park, Saturday, June 19.

"This place already has the feeling of community," Kramer said.

The goal for the park was to create a welcoming and lasting place of hope, reflection, and inspiration for future generations, according to Gregerson.

"We are here because of the communi-

ty-driven response to a tragic loss," she said. "Families and friends lost Anna, Jake and Jordan in a horrific shooting in 2016. Our community came together following that terrible night, and the concept of a peace park came to light."

Gregerson said she appreciated the contri-

butions of Anna, Jordan and Jake's families to help make the park meaningful to them and to the memory of their children.

Many other individuals and groups played a role in the development and building of

New traffic signal, crosswalks have special meaning for Kamiak graduate

Beacon photo by David Pan

Kamiak graduate Julian Jacox is excited about the opening of the new stoplight and crosswalks on Beverly Park Road. The stoplight and crosswalks are part of the Harbour Reach Corridor Project. Jacox was nearly killed when he was struck by two cars while crossing Beverly Park Road in 2010.

Julian Jacox suffered a traumatic brain injury as a result of a 2010 car accident on Beverly Park Road

BY DAVID PAN

REPORTER@YOURBEACON.NET

Julian Jacox can't wait.

Like many residents near Beverly Park Road, Jacox is eagerly anticipating the opening of the new traffic signal and crosswalks at 132nd Street SW, which is part of the Harbour Reach Corridor Project connecting Harbour Pointe Boulevard SW and Beverly Park Road.

The project has special meaning for Jacox, who nearly lost his life after being struck by two different cars while trying to cross Beverly Park Road.

On Jan. 7, 2010, Jacox was headed to a bus stop to catch a ride to Harbour Pointe Middle School for a basketball game. But Jacox forgot his ball at home, so headed back to get it.

As he was crossing Beverly Park Road, Jacox, then 14, was hit by one vehicle and struck by another.

Jacox was taken to Harborview Medical Center, where doctors performed emergency surgery. He spent two weeks there before being transferred to Children's Hospital for six more weeks of treatment. Thirty-seven surgeries followed, along with physical, speech and occupational therapy. Jacox had to learn how to talk, walk, and eat again due to his traumatic brain injury. He continues to go to physical therapy for gait issues.

At the time, doctors were uncertain of Jacox's future.

"The doctors were kind of grim," Jacox's mother, Sirita said. "We don't know enough about the brain."

Today, Jacox still deals with aftereffects of the accident, especially with his short-term memory.

But Jacox, who is turning 26 this week, hasn't let the accident or his traumatic brain injury define the person he wanted to

Sales tax revenue ahead of projections

City to fill assistant planner, maintenance worker positions

BY DAVID PAN

REPORTER@YOURBEACON.NET

Robust sales tax revenue is giving Mukilteo's finances a boost.

During Monday's City Council meeting, Finance Director Shawn Hunstock said sales tax collections through May 2021 are 2.15% higher than 2020 and are \$331,357 above budget. First-quarter sales tax revenue was 26.6% higher than budget through March and 35.6% higher than budget through May.

Retail sales tax is more than 20% higher than 2020, and construction tax revenue is 1.3% higher through May.

In part because of the strong sales tax numbers, the council voted 6-1 to approve filling two vacant positions – assistant planner and maintenance worker II – with a hire date of Aug. 1. As part of the 2021 budget process, the council was conservative with its sales tax revenue projections due to the uncertainty associated with the on-going pandemic.

A decision was made not to fill the assistant planner position, which has been vacant since November 2019, and the maintenance worker II, which was created as part of the 2020 budget process, but never filled.

Vice President Bob Champion

cast the lone dissenting vote, citing a lack of information on the City's need to fill those positions.

"I hear the pleas from the staff and I feel for them," Champion said. "But as someone who's managed a large organization for a long time, I will tell you that the data presented to me does not fulfill what I consider are the fundamentals on why an organization would hire staff. As I pointed out in my questions, there was no level of service analysis done. There's no key performance indicators that once this gets approved that can be measured. There's no goals or objectives that were put forth to this council, and in short there's really no accountability."

The total annual cost of both positions is \$168,827, and the budget impact for 2021 is estimated at \$70,345 for the last five months of the year.

Hunstock noted 2021 sales tax revenue was budgeted at \$2.4 million.

"Based on the current projection, we are looking to end the year about \$3 million in sales tax, which would be approximately \$600,000 over budget," Hunstock said.

Not all the numbers Hunstock presented were positive. Recreation revenues continue to be im-

see **TAX REVENUE** page 12 ►

from **TRAFFIC SIGNAL** page 1

become.

"I was offered a second chance in life," he said.

Jacox graduated from Kamiak in 2014 and went to Washington State, where he graduated with a social science degree in 2019. Jacox joined a fraternity at WSU, and later lived on his own in an apartment. He was the team manager for the women's basketball team.

"It's just amazing," Sirita said of his son's recovery. "He remembers a lot more than they said he would remember."

All of the challenges Jacox faced helped shape his character.

"I feel stronger, more confident, more brave," he said. "I'm more social. I'm not shy anymore. I was super shy before the accident. Now I'm more social."

Jacox is thriving in his first job out of college as a customer success coordinator at Vi-

mly Benefit Solutions. The Mukilteo-based company is a third-party administrator that assists businesses with their employee benefits.

Jacox's responsibilities include organizing, processing and updating client-related documents, such as PTO and DocuSign records. He also scans, processes and distributes the company's mail.

He said his co-workers are the best part of the job.

"I love being around them," he said.

Because he's still on anti-seizure medication, Jacox is unable to drive. So his mother drives him to work in the morning and picks him up in the evening.

But that's about to change.

Once the new traffic signal and crosswalks open, Julian is planning to walk to work. Vi-mly's office is about 2 miles away from the Jacox's house, in unincorporated Snohom-

ish County.

"I'm excited," Julian said. "It took 11 years to build a crosswalk."

The walk will take about half an hour.

"I walk pretty fast," Julian said.

Sirita also is extremely pleased about the new traffic signal and crosswalks, which she said benefits all residents. The nearest crosswalks on that stretch of Beverly Park Road are at Mukilteo Speedway or Picnic Point.

"It's going to create safety," Sirita said. "We have so many young kids around the neighborhood. You see people run back and forth across that street all the time because nobody's going to go to Picnic Point to cross up or to the Speedway. I just want it to be safe for the little kids."

A neighbor told Sirita about how he used to walk with his young daughter, but stopped due to his concerns about traffic

and the excessive speeds on Beverly Park Road.

"People are so used to flying through there," Sirita said. "I hope they slow down."

When he was living in his apartment in Pullman, Julian walked every day to school.

"Julian loves to walk. He walks everywhere," Sirita said.

When he's not playing video games, he is out with the family dog.

Julian doesn't hesitate to share his story with people he meets. He hopes others, especially drivers, can learn from his experience.

"Be careful," he said. "Always be careful."

Julian Jacox has the date of his accident tattooed on his arm.
